## WHAT IS “CRAFT BEER?”

That’s a hard question to answer these days but here are a few guidelines for the beers we may carry:

- Craft beer is that which is brewed with a goal of “aesthetic character”
- Craft breweries are authentic, independent, honest and committed to excellence
- A micro-brewery is a brewery which produces a limited amount of beer
- Not the “big boys” of the beer industry!

Due to an ever-increasing demand for craft beer, we cannot always guarantee these beers will be in stock. Trust us, we will try as hard as we can to get them and micro-breweries around the world are also working hard to keep up with this demand.

### ***Cheers!***

And watch for the **(AB)** and try an Alberta beer

## BLONDES, BROWNS, AMBERS & REDS

### **Anchor (US) Steam Beer 4.8%**

**\$7.25**

Anchor Steam® Beer owes its deep amber colour, thick, creamy head, and rich, distinctive flavour to a historic brewing process like no other. It is a process that combines deep respect for craft brewing tradition with many decades of evolution to arrive at a unique approach: a blend of pale and caramel malts, fermentation with lager yeast at warmer ale temperatures in shallow open-air fermenters, and gentle carbonation in our cellars through an all-natural process called kräusening.

## BLONDES, BROWNS, AMBERS & REDS

### **New Belgium Brewing (US) Fat Tire Amber Ale 5% \$7.00**

Named in honour of our co-founder's bike trip through Europe, Fat Tire Amber Ale marks a turning point in the young electrical engineer's home brewing. Together with co-founder Kim Jordan, they traveled around sampling their homebrews to the public. Fat Tire won fans with its sense of balance: toasty, biscuit-like malt flavours coasting in equilibrium with hoppy freshness. Fat Tire: Pairs well with people.

Chimay Red is noted for its coppery colour which makes it particularly attractive. Topped with a creamy head, it gives off a light, fruity apricot aroma produced by the fermentation. The taste perceived in the mouth is a balance confirming the fruity nuances noticed in the fragrance. Its taste, which imparts a silky sensation to the tongue, is made refreshing by a light touch of bitterness. To the palate, the taster perceives a pleasant astringency which complements the flavour qualities of this beer very harmoniously. This top fermented Trappist beer, refermented in the bottle, is not pasteurized.

### **Unibroue La Fin du Monde (Abbey Tripel) 9% \$7.00**

## **Blindman Brewing (AB) River Session Ale (473mL can) 4.4% \$8.25**

Why start with a session ale? Here at Blindman Brewing we're fans of all styles. We like big, bold, barrel-aged stouts. We savour the puckering sour bombs. We revel in bitter early-boil hops that scrape our tongues. But what do we drink in between, or when we can't decide? We grab a beer that's brimming with flavour and effortlessly devoured - Blindman River Session Ale. Featuring an intense dry hop aroma and delicious hop taste with muted bitterness, it finishes dry and leaves us wanting another. It's a beer we can hand to friends knowing they'll dig it. It's a style we keep coming back to, no matter where our tastes may wander.

## **Mill Street Tankhouse Ale 5.2% \$6.00**

Like traditional pale ales, Tankhouse Ale has a deep copper-red colour. We use five different malts to produce a complex malty texture. The most dominant character of our Pale Ale is the hop. Our brewmaster developed this recipe 20 years ago and it has remained his favourite drink of choice.

A trophy beer that's a testament to our homebrew roots. Our Sculpin IPA is a great example of what got us into brewing in the first place. After years of experimenting, we knew hopping an ale at five separate stages would produce something special. The result ended up being this gold-medal winning IPA, whose inspired use of hops creates hints of apricot, peach, mango and lemon flavours, but still packs a bit of a sting, just like a Sculpin fish.

With a high alpha acid of 11%, Citra has a cacophony of flavours and aromas — Citrus, passion fruit, grapefruit, lime, melon, lychee fruit, pineapple, mango, and papaya – and dominates this beer. With the first taste, Smashbomb’s 70 IBUs are pronounced. This brew is a little bitter, but bitter like a grapefruit with three tablespoons of sugar on top. It’s also incredibly drinkable.

There is copious amounts of American style hops used in the brew kettle and dry hop additions to assault the senses with citric aromas and flavours. This beer boasts a 6.7% abv but the ibus are one that we must claim as questionable because once you reach a certain point, ibu’s are immeasurable without a spectrophotometer – Industrial Ave is in that range.

This leaves particulates in the beer that give it the noted hazy appearance.

### **Whistler Brewing Chestnut Ale 5% \$6.75**

Our Chestnut Ale is a true reflection of the fall. We've blended robust caramel and crystal malts to give the brew deep brown amber hues, for an almost warming appearance. But it's the roasted chestnuts that impart a unique and bold nutty character, complemented by a light level of hops, for a clean but crisp finish. Gold Medalist at the 2017 Canadian Beer Awards in the Herb & Spice Beer Category.

# RED WINE

## Big House “Cardinal” Red Zinfandel (US)

6 oz \$7 9 oz \$10 bottle \$28

We are zealous believers in the decadent and forbidden flavours of this sinfully delicious Zinfandel. Grown from Beastly Old Vines from stately, yet sometimes forgotten vineyards throughout California. This wine elicits fervent, fecund and frenzied tongue enveloping pleasures. A wine of substance, it's a Cardinal Zin not to drink at the altar of this decadent, spicy zinfandel. This is a refined pleasure, with intense flavours of blackberry mingling with soft creamy touches of oak, vanilla and dry herbs. It's full on the palate, but not heavy and the fruit is constant from the first sip to the end of the finish.

## Banrock Station Shiraz (AU)

6 oz \$7 9 oz \$10 bottle \$28

The Banrock Station Shiraz exhibits lifted aromas of raspberry and sweet plum with hints of spice supported by vanilla oak. On the front palate sweet raspberry and dark berry fruits are present. Medium grainy tannins are evident, adding structure; however this red wine remains soft. The mid palate is rich with fruit sweetness, vanilla oak and spice complexity, ultimately finishing dry and soft.

## Black Cellar Malbec Merlot

ASK YOUR SERVER ABOUT THIS WEEK'S FLAVOURS!

## What is a 'mac'?

Mac is short for 'macaron', a French pastry made by carefully mixing almond flour and meringue to exactly the correct consistency, then piping the batter into small discs. These discs are then sandwiched together with different filling contents to create unique and specific flavours.

## What's in the filling of your macs?

If you're eating a macaron from Macs & Custard, you can assume that whatever the flavour is called ... is also in the filling. For example, if you're eating a Macs & Custard Birthday Cake Smash macaron, in order to make the filling, we have literally baked a birthday cake, cooked a vanilla frosting, and added it to the other ingredients which make up the filling.

## How do you flavour the shells?

If you're eating a Macs & Custard macaron and are thinking that the shells are also flavoured, you're not alone! However, as much as it may seem like the shells are flavoured, each and every shell, should you eat them on their own, will taste EXACTLY the same!

## What's your recipe?

Good try!
